

7.0 FOLLOW-UP TEACHING STAFF SURVEY (PAGE 1)

Thank you for participating in this survey!

The data collected from this survey will help to measure the change at your school as a result of the Rights Respecting Schools initiative. The questions have been designed to address the four Rights Respecting Schools Building Blocks: Awareness, Student Participation, Teaching and Learning, and Leadership.

Confidentiality and Anonymity

Full confidentiality and anonymity of all data collected from this survey by the Facilitator is assured. Under no circumstances will this data be shared publicly. The results of this survey will not be shared with your school staff in this format, but may be incorporated into a larger research document to be presented as part of the overall data, and to be used when creating the School Action Plan.

Voluntary Participation

Participation in this survey is voluntary. A decision not to participate will not affect the integrity of the data or the school's overall participation in the Rights Respecting Schools initiative.

To Complete this Survey

The following survey contains questions about the rights respecting capacities of your school. Please complete the survey by checking the answer that best represents how you feel for each of the following questions. When you have completed the survey, **submit it to your school's Children's Rights Team**. They will ensure it is then submitted to your school's RRS Certified Facilitator.

Note

The scale used for many of the questions (from "strongly disagree" to "strongly agree") is designed to give you the opportunity to provide more than a 'yes' or 'no' answer. Providing a more nuanced answer will allow our researchers to track changes and shifts in approaches and policies, more than a 'yes' or 'no' answer could.

Please do NOT record your name on this survey.

Please check here to show that you have read and understood the information above and would like to participate in this survey.
